Summer takeoff ✓

Get Set to Go!

Because we **understand** certain accessories for summer travel are *needed*.

You've purchased your airline ticket.

You've packed your suitcase.

Now, it's time to Get Set to Go!

Will the temperature be warm or cold, will there be network access, should I take my golf clubs? What about my scuba knife? Am I allowed to check that in?

These are typical questions travelers ask themselves while preparing for a vacation or business trip. Now, the Transportation Security Administration would like to help you *Get Set To Go* through security screening a little faster by making you aware of steps you can take before you get to the airport.

Please visit our website at www.tsa.gov to receive more information on how to prepare for your summer takeoff.

Thank you.
